

Millerton Veterinary Practice

December 19, 2021

Dear MVP clients,

We would like you to know that with the current increase, both locally and nationally, of cases of COVID-19, Millerton Veterinary Practice will be returning to curbside service on Tuesday, December 21. As difficult a decision as this is, the safety of our staff, clients, and community must be our priority. Multiple infections at the animal hospital would make it necessary for us to suspend all service, and that is not an acceptable scenario for anyone. Please be assured that our care will remain personal, compassionate, and focused.

Please remember to bring your cell phone and call our front desk when you arrive and are parked safely. There are two designated parking spots to the right of our front doors that are preferred spaces for our curbside clients because of optimal cell service and proximity. One of our technicians will speak to you by telephone or walkie-talkie, then come out to meet you and your leashed or confined pet at your car. We kindly ask that you remove your pet from your car as we approach.

We wish you safety and peace over the holidays and look forward to returning to our usual service soon.

Sincerely,

Dr. Carolyn Cannon
