Chat or Video Call
Your Veterinarian
Directly!

We've responded quickly to new restrictions around how we can provide care to our clients. In addition to our new curbside services, effective Monday, May 11, 2020, MVP is excited to offer Airvet, a telemedicine app, that allows our clients to connect with Dr. Cannon via live video and chat!

We will be offering telemedicine via Airvet to our established clients for certain cases when clients are restricted from traveling to the office for an appointment. Examples of certain cases for established clients include recheck exams and consultations over the phone that may not require a physical exam but need medical attention.

In addition to telemedicine, we now offer an after-hours care, known as telehealth, using Airvet to provide that care to you virtually when needed.

In a "contactless" world, this is a big and exciting step forward for us as we adapt to these unprecedented circumstances. If you have further questions, please call and our team. We will be happy to answer any questions regarding Airvet.

Yours Truly,

The Millerton Veterinary Practice Team

PLEASE MAKE SURE YOU HAVE THE APP ON YOUR PHONE OR TABLET SO YOU HAVE AIRVET READY WHEN YOU NEED TO USE IT! DOWNLOAD THE APP HERE:
